# **NEW PFI WEBSITE**

REDESIGNED: POWERFUL, CUSTOMISABLE AND INTUITIVE GLOBAL PROJECT FINANCE COVERAGE

The PFI website (www.pfie.com), has been redesigned. PFI's comprehensive and authoritative coverage of the project finance sector now features a clean new look and platform enhancements designed to improve the user experience.

## FEATURES

### EASY NAVIGATION

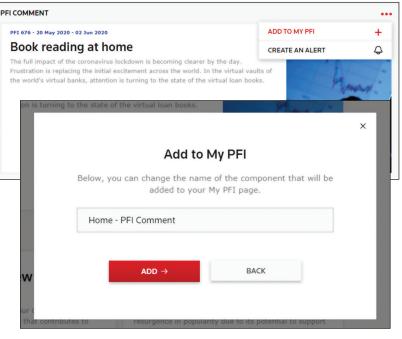

Navigating PFI is easy. Content is laid out in the top header by region and topic. A new navigator on the left side of the page enables faster vertical page navigation.

#### **RESPONSIVE DISPLAY ACROSS DEVICES**

The new responsive website will automatically display optimally over any screen or device. Some features may be disabled over smaller screens.

#### POWERFUL PERSONALISATION WITH My PFI

Much of the content in the new PFI can be placed by users into "My PFI" — a tool that allows users to place the information most pertinent to them based on region and topic in one curated page.

## TARGETED E-MAIL ALERTS

Users of PFI can easily select content from across the platform and receive e-mail alerts when updates to these are available. Alerts can be set up to be sent immediately or in a morning or evening digest format.

## **REFINED SEARCH**

Searching in PFI is fast, logical and powerful. Advanced News searches are conducted by Sector, Region, Asset Type and People and Markets. Advanced Deal searches can be filtered by Region, Sector, Cost (US\$) and Date. Myriad easily-editable filters are provided to make searches highly-focused.

As you begin to type in the search box, PFI instantly begins populating the search field with possible hits, covering all areas of the PFI platform. Headers inside the search results show which category the search results have been returned from.
